Lifetime Warranty

All Progeny products manufactured by BSB Electronics Ltd are covered by 'Progeny Lifetime Warranty' which is limited to any defective material or manufacturing defects causing the failure of the product during its lifetime. Third party products not manufactured by BSB Electronics are covered by the warranty supplied by the original manufacturer.

Lifetime means the period of time the product remains in manufacture at BSB Electronics Ltd.

Lifetime cover does not include faults caused by damage due to neglect or having being handled without due care and attention, damage due to misuse, normal wear and tear of limited lifetime components (i.e. contact based cards or readers) or not being installed to BSB Electronics Ltd specifications and instructions.

Any products returned to BSB Electronics that are found to have 'no fault' or are not covered by standard warranty or Progeny Lifetime warranty, are subject to a standard repair charge of £45.00 (exc. VAT) which will be made for any investigative work, testing and repair unless the item is beyond economical repair.

Declaration I understand the terms of the warranty and agree to the charges for returned goods that are not covered under its terms.

Name.....

Company Name.....
